PINCH
We started PINCH with a single aim; to design and make furniture and lighting that we would want to live with. We set our sights on what we might want. We indulged ourselves in the detail, and didn’t compromise on the materials. The result is our growing collection and we are delighted to have been nominated for, and to have won, many design awards along the way.

Our work celebrates simplicity of form, the purity of a good shape and our emotional connection with the materials around us. We live in a cluttered world and any furniture or product has to work very hard to win its place. We believe in poetic design, making beautiful things, pieces that endure, inspire and aspire to be inherited. Our furniture and lighting work in both domestic spaces and contract environments and whilst we had a very personal vision of how our pieces might live, we delight in the fact that our clients engage with them differently to create very personal and particular spaces.

PINCH is a collaboration between husband and wife Russell Pinch and Oona Bannon. Our pieces are hand made and are considered and built to last.

Armoire interior options
The Armoire interiors have been created to offer flexibility. We have designed a selection of uses from wardrobe to media and beyond. However all requests such as mini bars and home office can be made. All armoires are available in single and double sizes, with bespoke versions on request.
Bespoke

Our furniture is made in small batches or made to order. This means our clients can commission their piece in bespoke dimensions, finishes or configurations – always redrawn by us to maintain the original design integrity.

Please contact us with any requirements.

UPHOLSTERY

We show our upholstery in a selection of house fabrics but can also purchase your chosen fabric on your behalf, alternatively pieces may be commissioned in COM (customer own material) assuming a suitable quality. If you are supplying COM we ask for a sample to ensure its suitability, and please note many COM fabrics will need to be supplied with a fire retardant back coating.

CABINETRY

We have created a small colour collection for painted finishes (the swatches below are for guidance only and physical swatches are available on request). Some of our standard pieces are available in specific colours and timbers only, this is listed within the technical information for each piece.

We can also bespoke make our pieces in either our collection of colours, or can match your own paint reference. Please note that changes to our standard finishes may incur additional cost.
